

Electrical/Mechanical Maintenance Man

The Eastern Irrigation District is a large progressive irrigation district situated between the Red Deer and Bow Rivers with its main office located in Brooks. The EID system diverts water at the Bassano dam to supply 285,000 irrigated acres with water through its extensive canal and drainage systems. Currently the District is conducting an ambitious rehabilitation program of the irrigation system installing pipeline systems, lining canals, installing new control structures and automating many of them. Due to a retirement, there is an opening in our electrical/mechanical maintenance department that assists with the electrical component of the new works and for maintenance of existing works.

The successful applicant will work under the direction of the Operations Manager and will coordinate with the various departments of the District to fulfill a diverse range of duties. These will include assisting with the installation of new works, the regular and systematic inspection and maintenance of all pump stations and electrically controlled structures in the irrigation system of the EID, keeping of thorough and up to date records of the inspections and maintenance, as well as the general electrical maintenance on District owned buildings. Experience with pump stations, PLC's along with automation and controls would be of great benefit.

This position requires a highly motivated individual who is capable of working with limited supervision, yet able to coordinate with a number of departments to ensure the smooth operation of the electrical/mechanical works. The successful applicant should be a fully certified Journeyman electrician with a work history displaying related employment. The EID is a stable community orientated organization which has been in existence since 1935 and provides a comprehensive benefits package. Salary will be competitive and shall be commensurate with experience.

All interested candidates should submit a resume stating their experience and qualifications no later than **November 28, 2006**:
